Mike Allred : Red Rocket 7 before purchasing it in order to gage whether or not it would be worth my time, and all praised Red Rocket 7:

2 of 2 people found the following review helpful. Fun StoryBy Rudy GardeaGreat story. A fellow art instructor gave me the series but left out the last issue...I had to know how it ended and this was a fun sci-fi romp into how an alien came to earth and was responsible for influencing the Rock era. The art and the likenesses on greats like the Sones, Hendricks, and the Beatles and Led Zeppelin kept me turning the page to see what would come next. I wouldn't have thought that I'd enjoy this as much as I did! GET IT!1 of 1 people found the following review helpful. Five StarsBy Piers FettersIf you like Space and Rock and Roll this is a must read1 of 1 people found the following review helpful. Excellent comic, published in tiny, expensive edition :(By DamianThis is a very tiny book for the money! Its dimensions are far less than standard comic book size. The original issues were far larger than standard, so I was more than a little shocked when I received such a tiny thing in the mail.

This is the story of Red Rocket Seven: The entire history of rock 'n' roll as seen through the eyes of the seventh clone of a man from a distant world. RR7 rubs shoulders with every legend from the birth of rock in the '50s, through the British invasion of the '60s, through the advent of Heavy Metal and Glam rock in the '70s, the New Wave of the '80s, the Grunge Rock and Indie/Alt. scene in the '90s, and into the new millennium! This special edition is busting out with

special features, plus rare and new art.
