**From Springer : Rehabilitation Today (Update books)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rehabilitation Today (Update books):

HIS book is based on a series of papers first published in Update during T 1974 and 1975. When they originally appeared they attracted attention from workers in many fields connected with rehabilitation, and it was clear that their appeal stretched far beyond the usual readership of Update. The papers present a unique collection of information on aspects of rehabilita tion, and their publication as a single volume has been requested by many. Since their original publication the papers have been revised. There have been many changes in the organisation of government and voluntary services, including, for example, changes in the law relating to the mobility allowance. These changes have been incorporated in the revision, and the book now presents an up-to-date account of the various aspects of rehabilitation including the services provided by government and voluntary organisations, relevant legislation, the provision of aids and appliances and problems affecting particular disability groups. If it is concerned principally with

the physically disabled this is because they appear numerically to be the most important.
