**Duan Xiao Li : Research Methods of Exposure Factors and Its Application in Environmental Health Risk Assessment (Chinese Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Methods of Exposure Factors and Its Application in Environmental Health Risk Assessment (Chinese Edition):

It is the first systematic summary to the basic theory and research methods of exposure factors. At the basis of analysis

to relevant progress at home and abroad, the author combines with her own field survey experience and partial research results writes this book.
