Required text for daughter's classBy BSRThis book was purchased for one of my daughter's college classes. Since it was a required text there wasn't much choice in purchasing! It looked like it had never been touched before, I was pleased.

A comprehensive guide for survey planning, study and questionnaire design, and execution and presentation of research. Topics include evidence-based practice, appetite assessment, estimating sample size, economic analysis,

using DRIs to assess intake and creating consumer research nutrition messages. This book is invaluable for practicing professionals and students.
