**Food and Agriculture Organization of the United Nations : Residues of Some Veterinary Drugs in Animals and Food: Carbadox, Deltamethrin, Dicyclanin, Flumequine, Imidocarb Dipropionate, Neomycin (FAO Food and Nutrition Papers)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Residues of Some Veterinary Drugs in Animals and Food: Carbadox, Deltamethrin, Dicyclanin, Flumequine, Imidocarb Dipropionate, Neomycin (FAO Food and Nutrition Papers):

The residue monographs in this document provide information on chemical identity, properties, use, pharmacokinetics, metabolism, tissue residues and their depletion, and analytical methods for the substances indicated on the cover. This publication is intended for regulatory authorities, veterinary drug researchers and any other concerned persons who wish to gain information and insights into the assessment of the above listed information and who are involved in recommending maximum limits for veterinary drug residues in food.
