John Barber, Mairghread Scott, James Roberts : Revolution: Transformers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Revolution: Transformers:

0 of 0 people found the following review helpful. i have pre-ordered phase two-volume 6 but wonder if i've wasted my money collecting the series this way By Matthew Casheli collect the transformers idw collection via the over-sized hardcovers. i have pre-ordered phase two-volume 6 but wonder if i've wasted my money collecting the series this way. i thought they would reprint the entire idw tf universe but i see no pre-order for a phase 2 vol. 7 and if the hardcover collection i support continues is it only going to collect revolution or transformers issues? so far, most everything from

"the shared universe" experiment includes important non-tf issues (not just revolution but , basically, everything post-rom 1 that introduces g.i. joe and sets up the m.a.s.k. bad guy messing with a tf's head. i think i'm going to get screwed on this one.0 of 1 people found the following review helpful. Exactly what I was looking for.By BrandonThis contained exactly what I was looking for: the one-shot tie-ins for the Revolution crossover from the Transformers titles. I don't care about those GI Joe losers, that's why I bought the Transformers focused volume.1 of 4 people found the following review helpful. not good - avoidBy Frank L. Greenagel IIThis is a collection of 6 stories written by the various Transformer writers for IDW. It mostly deals with the crossover Revolution storyline that includes GI Joe, Mask, Rom, the Micronauts and maybe a few other stale 80s creations. The Revolution book was horrible. If you haven't bought it, pat yourself on the back and move on.I fell in love with James Roberts' work on MTMTE (the best Transformers book every written and a great comic overall). This led to me to Barber's RID series. As both ended and other writers have joined on, the Transformers universe has sagged a bit. I'm hoping the Messers Barber and Roberts can return it to its former glory from a few short years ago.Five of the stories are 1 star. The only redeeming tale is Silent Light by James Roberts, which follows the crew of the Lost Light in a fun little tale. That said, I would skip this. I was duped into it by the brand, title and writers. Sigh.

The Revolution continues! Thundercracker and Buster save the World! A White House under siege by Dire Wraiths! Windblade on Earth! And a date with destiny for Krok, Crankcase, Fulcrum, Spinister, and Misfire! Collects The Transformers, More Than Meets The Eye, and Till All Are One Revolution One-Shots plus the 2015 Holiday Special.

"An incredible series that links back to the Revolutionstoryline, and fills in what is going on with the Microverse." Pop Culture UncoveredAbout the AuthorJohn Barberis a former Marvel and IDW Publishing editor now focused on writing comics. Credits include:Optimus Prime, Doctor Strange/Punisher, Ultimate Spider-Man Infinite Comics, Revolutionaries, Back to the Future,andAction Mancomics!Mairghread Scottgrew up in Dearborn, Michigan, a suburb of Detroit, and was raised on a healthy diet of Shakespeare, Monty Python, and three iterations ofStar Trek. After college, Mairghread worked her way up as an assistant while writing plays and honing her talents. Then she landed a job as a Script Coordinator forTransformersPrimeandG.I. Joe Renegades. Mairghread got her first opportunity to join a writer's room there and it led to her first professional script, "Stronger, Faster." Since then, she has written for many different TV shows and comic books as a freelance writer and story consultant. She has had the joy of helping to create the first fan-built transformer, Windblade, and bring her to life in the IDW comics series of the same name, as well as writing Windblade's introduction to the new animated seriesTransformers Robots in Disguise.
