Reminds me of the 1990s Ghostbusters cartoon, mixed with its own unique flavors. Found it difficult to understand the time paradox plotlines, for some of the characters. But loved the supporting characters, especially the concept of the NYPD in the future.0 of 0 people found the following review helpful. If you

think you'll like it or are interested you'll enjoy itBy A_1Good book. I got the first 2 issues and stopped then revisited the trade and enjoyed it. Wasn't incredible but was pretty good. There's kinda like an 80's cop movie vibe, mystery, bland characters at first that are starting to get flushed out. Overall I liked it and hope vol 2 comes out soon.0 of 0 people found the following review helpful. Rocket Girl is a fun comic and the art looked wonderfulBy AnonymousRocket Girl is a fun comic and the art looked wonderful. I especially appreciate her design, incorporating the Korean spelling of her name onto her uniform. It was fast paced and I really enjoyed reading it.
