Purchase for Any Rocket EnthusiastBy FCV96After seeing Guardians of the Galaxy in theaters, I figured that it would be a good time to get into comic books. It seemed like a sound plan to start off with my favorite character from the film, and I was unsure of what to expect upon picking this compilation up. I was hoping that the writing would be coherent at the very least. Now that I've read through it, however, it is safe to say that my fears were unfounded. I found myself practically laughing out loud at some of the jokes in here, and the rest of the writing and character interactions are superb. The sheer amount of detail in the artwork continues to awe me at every page turn, and the end left me wanting more. Good thing volume two is out, because I'm definitely a fan!

Rocket Raccoon has been a hero to the weak, a champion of good, a heartthrob to many intergalactic females...but his high-flying life of adventure may be a thing of the past when he's framed for murder - and the authorities aren't the only one on his tail! (Get it? Tail?) The real killer is an imposter who seems to be one step ahead of Rocket at every turn...now, it's up to our hero and his best pal Groot to find the truth! With Macho Gomez and the Ex-Terminators tracking him, can Rocket make it out alive and clear his name? Superstar creator Skottie Young brings his A-game as writer and artist on the series we've been waiting decades for. Because really, this is the only Guardian of the Galaxy you actually care about, right?COLLECTING: Rocket Raccoon 1-6
