Brian K. Vaughan : Runaways: The Complete Collection Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Runaways: The Complete Collection Volume 1:

7 of 7 people found the following review helpful. Reminded me of an older season of Power Rangers...only written for an older audience, and actually uses Teens with attitude.By Skyler reisnerI'll be honest. I've never heard of this team in

all of the M.U. It wasn't until recently when I was reading an article on line for the M.C.U that said that this bunch would be a possible show. So with christmas money to spend i bought the first two volumes of the complete collection to see what was up with them. Partially out of 'research' and partially out of curiosity. I have been wanting to read something fresh and new besides the standard marvel work that i've been reading recently, rather than complex and epic i've been wanting something more simple and small scaled. Runaways is the literal s#!t, as one of the team members would say. It is definitely one of the best series i've ever found. The story is simple, evil parents having their children rebel and become heroes. Where Runaways shines is the chemistry between each character. By the end of the first volume you'll be dying to get your hands on book 2, as well as the rest that are coming out next year. At some points the series reminded me of the older seasons of power rangers in a way. Teenagers with attitude being granted the powers and chances to do the right thing. Its like older power rangers if they were written in a way that explored each character and the relationships they have with one another in this war for balance between good and evil. If i could have one gripe though, the big twist in the end is the only thing I felt was done in just the most laziest ways. It's just that the moment wasn't as epic as it should have been due to the fact that it really is the ONLY possible outcome from all the little hints that were so big you could have practically had them wear a neon sign that read "I WILL BETRAY YOU ALL" and no one would notice. But besides that. Runaways is definitely one of Marvel's best young teams. If you are on the fence about weather or not looking into this book, you will definitely be getting your money's worth. It's fun, its fresh, and very well written. You will definitely be hooked. Oh did i mention that the team has a pet Velociraptor? Cause yeah, thats a thing. 1 of 1 people found the following review helpful. One of the best marvel books I've read in a while. By brandon hines This book has tons of fun likeable characters and a really interesting plot. I would recommend this book to anyone that's a huge comics fan or has very little knowledge of comic books. 0 of 0 people found the following review helpful. Excellent. By Jamie connolly Awesome. Brian k Vaughan is awesome. A bunch of snotty kids annoy the crap out of you after they realize their parents are super villains. 350 pages of kids complaining in a way only Brian k Vaughan could make enjoyable. The only stuff better is other stuff by Brian k Vaughan.

They were six normal teenagers linked only by their wealthy parents' annual business meeting...until a chance discovery revealed the shocking truth: their parents are the secret criminal society known as the Pride! For years, the Pride controlled all criminal activity in Los Angeles, ruling the city with an iron fist...and now, with their true natures exposed, the Pride will take any measures necessary to protect their organization - even if it means taking out their own children! Now on the run from their villainous parents, Nico, Chase, Karolina, Gertrude, Molly and Alex have only each other to rely on. COLLECTING: RUNAWAYS (2003) 1-18
