Brian K. Vaughan : Saga #1 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Saga #1:

0 of 0 people found the following review helpful. I enjoyed it By ZarahI grabbed this first chapter when it was free on KDP. I generally enjoyed it. I liked the art, the fact that it's full color and the main characters. The story seems like it will be an interesting one too. It did feel a little rushed though. Note on tech: I have a Kindle touch, as well as Kindle app on my computer and phone. The only one that this comic would open on was my Nexus 4. So I was forced to read it on a comparatively small screen, while double tapping each panel to enlarge. It took forever and definitely effected my enjoyment. It didn't change my rating any, but it's worth mentioning. 0 of 0 people found the following review helpful. Good Graphics By Regular shopperThe graphics were excellent...so good they made the story. They provided the descriptions of physical backgrounds, characters' emotional reactions and dramatic panoramas that would have required this 'book' to be many times longer if written descriptions were used. I wouldn't mistake this for a "comic book"..."graphic novel" is the perfect descriptive name for it. The only reason I didn't give it a "4" is that I felt that even the minimal use of profanity included in the script prevented it from being appropriate for teens as well as adults. 0 of 0 people found the following review helpful. Five Stars By R.C.Great product!

Saga #1 "1st Print"
