Oversized, with good paper and truly amazing binding. This is definitely the way to collect Saga.On the other hand, let me warn customers. ships this book in its infamous cardboard folders with no protection whatsoever. And its quite a thick book that barely fits in the aforementioned cardboard

folder, so every hit the box takes during the trip to your house is going to be absorbed by the book. Every single corner of the books cover and back cover, except for one, was dented and even coming apart. A real shame. I repeat, ships this book with no protection whatsoever, so be wary, especially if you do not reside in the US. 2 of 2 people found the following review helpful. A Comic Gem By AKA Sully Saga is by far one of my favorite graphic novels that I have ever come across. Writer Brian K. Vaughan never disappoints with the comics he releases over the years. Saga is most likely his biggest success to me. Writing is witty, charming and on point, as you can't help but become invested in the world and characters he creates. You will not regret this experience. 0 of 0 people found the following review helpful. Amazing new series, one of the best series out right now in the comic book industry. By kim hurley Do you love comics? Do you love a good Romeo and Juliet type love story? Do you love futuristic sci-fi? Do you love fantasy type books? Do you love bounty hunters and awesome space battles? Do you love civil war and action? Then read this!!! This series literally has everything in it. From an awesome new sci-fi world blended with elements of fantasy it stands out amongst all the current comic series right now. Brian K. Vaughan does a superb job here on this series. Everything about the stories happening in this book makes you never want to put it down. BUY THE COLLECTED EDITION!! It is worth it to buy this hardcover copy, it comes with so much and looks great on the shelf. This series is a MUST READ!!

Collecting the first 18 issues of the smash-hit series, this massive edition features a striking new cover, as well as special extras, including never-before-seen sketches, script pages, and a roundtable discussion with the creators about how SAGA is really made. Altogether, this hardcover contains over 500 pages for less than fifty bucks! Written by Eisner Award-winning "Best Writer" BRIAN K. VAUGHAN (Y: The Last Man, The Private Eye) and drawn by Harvey Award-winning "Best Artist" Fiona Staples (Mystery Society, North 40), SAGA is the story of Hazel, a child born to star-crossed parents from opposite sides of a never-ending galactic war. Now, Hazel's fugitive family must risk everything to find a peaceful future in a harsh universe that values destruction over creation. Fantasy and science fiction are wed like never before in a sexy, subversive drama for adults that Entertainment Weekly called, "The kind of comic you get when truly talented superstar creators are given the freedom to produce their dream book."
