favorites. Sailor Moon was my first manga ever....Thanks1 of 1 people found the following review helpful. Great set!By W. LimpornpugdeeI am an 11-year old girl whose mom got this set! Their funny expressions and unique designs were awesome when I saw them and I appreciated the author's hard work! And I understand Tuxedo Mask was forced to find "The Legendary Silver Crystal". There's even Sailor Chibi Moon! I didn't even know she existed in the Sailor Moon series!0 of 0 people found the following review helpful. Finally was able to leave a short reviewBy neptuneI only have a few volumes of the pocket book edition and for a while I had wanted to buy the whole series. Then I heard that Kodansha was translating the series so I decided to buy the box set. I like that each volume has a few color pages and it also came with stickers.ProA few color pagesBigger than the pocket bookCheaper than buying the volumes individualConIt's harder to get the volumes out of the box and it's also harder to put them back in.Other than that, I really enjoy reading the first six volume.

The mysterious Tuxedo Mask has revealed his identity, forcing Usagi to come to terms with her growing affections for the masked vigilante, all the while defending the people of Earth from renewed attacks by the sinister enemy. Everything threatens to overwhelm even Sailor Moon when suddenly a new Sailor Guardian appears. Could this new Guardian be the Moon Princess the Sailor Guardians are sworn to protect? This new edition of Sailor Moon features: - An entirely new, incredibly accurate translation! - Japanese-style, right-to-left reading! - New cover art never before seen in the U.S.! - The original Japanese character names! - Detailed translation notes!

"With its whimsical sense of fashion, thrilling adventure and complex backstory, Sailor Moon was like little else young girls had ever before seen on television, and miles above anything American animators were offering them. The anime led to interest in the manga, which in turn became the sort of success that made the bookstore market sit up and take notice. Scratch a modern-day manga fangirl, and you're likely to find someone who watched Sailor Moon when she was young." -The Comics JournalAbout the AuthorNaoko Takeuchi lives in Tokyo, Japan.
