**Naoko Takeuchi : Sailor Moon 5** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sailor Moon 5:

The covers of the first and last volumes are my favorites. Sailor Moon was my first manga ever....Thanks1 of 1 people found the following review helpful. Great set!By W. LimpornpugdeeI am an 11-year old girl whose mom got this set! Their funny expressions and unique

designs were awesome when I saw them and I appreciated the author's hard work! And I understand Tuxedo Mask was forced to find "The Legendary Silver Crystal". There's even Sailor Chibi Moon! I didn't even know she existed in the Sailor Moon series! 0 of 0 people found the following review helpful. Finally was able to leave a short review By neptuneI only have a few volumes of the pocket book edition and for a while I had wanted to buy the whole series. Then I heard that Kodansha was translating the series so I decided to buy the box set. I like that each volume has a few color pages and it also came with stickers. Pro A few color pages Bigger than the pocket book Cheaper than buying the volumes individual Con It's harder to get the volumes out of the box and it's also harder to put them back in. Other than that, I really enjoy reading the first six volume.

Chibi-Usa gets sucked into the far reaches of space-time and vanishes! It's up to Tuxedo Mask to reach her and get her back safely while Sailor Moon and the others must escape Nemesis and the evil clutches of Wiseman and his cronies. But as Tuxedo Mask travels through the space-time storm, he encounters an ominous woman claiming to be his daughter! Who is this strange woman? Is she really Chibi-Usa?! This new edition of Sailor Moon features: - An entirely new, incredibly accurate translation! - Japanese-style, right-to-left reading! - New cover art never before seen in the U.S.! - The original Japanese character names! - Detailed translation notes!
