**Naoko Takeuchi : Sailor Moon 6** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sailor Moon 6:

Long gone are the generic English names the characters have been cursed with the last decade and a half. Finally, you can read about Usagi, ChibiUsa, Minako, etc Also, they are referred to as Guardians/Senshi and not the silly 'scout' nonsense. Volume #6

begins with the third storyline in the series. Which centers around the very popular 'Outer' Senshi! Haruka, Michiru, Setsuna Hotaru.. also known as Sailor Uranus, Neptune, Pluto Saturn!The story line and dialogue is so fun, and it's all printed in right to left format like the way a manga should be read. The paper used in this re-release is a lot nicer than the cheap photo copy like paper they used in the first English manga ten years ago or so. Gone are the dark deep ink and cheap pages that would tear out easily.If you're an old devoted Sailor Moon fan like myself, you will definitely enjoy this new translation.The manga is very affordable too on .com, so, if you have any doubts considering there are a lot of negative reviews on this re-release. But it's all mostly biased opinions, read the manga for yourself for a faithful take on Sailor Moon that I thought we would never see here in the USA!I have already re-read my copies more than once, and I'm always eagerly anticipating the next volume!Big kudos to Kodansha! :)0 of 0 people found the following review helpful.

Meanwhile, the appearance of two new Guardians takes everyone by surprise as our favorite Sailor heroes must once again face off against new enemies to save the world!
