Naoko Takeuchi : Sailor Moon Box Set 2 (Vol. 7-12) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sailor Moon Box Set 2 (Vol. 7-12):

All the books are new productions with great translations.0 of 0 people found the following review helpful. The books and stickers themselves are in good condition - unfortunatelyBy Acaisha BuffoI received my books today! The books and stickers themselves are in good condition - unfortunately, the package was very poorly put together, and so the box for the set had crushed edges. That coupled with the slightly-longer-than-I-expected shipping time knocked it down a star. But other than that, I got my order, which is all I wanted! They look so beautiful and are bound so nice. Thank you!0 of 0 people found the following review helpful. love love loveBy BritchesBMy first time reading the manga. I'm in love. It gets real.

This second box set collects volumes 7-12 of the main Sailor Moon series. Like the first box set, this box set will also contain stickers of the 6 Sailor Scouts that are on the covers of each individual volume. Get ready for the exciting conclusion to this classic series!
