Naoko Takeuchi : Sailor Moon Box Set (Vol. 1-6) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sailor Moon Box Set (Vol. 1-6):

By Tiffany Fulton Perfect! My collection of the original Tokyopop manga is almost finished! The covers of the first and last volumes are my favorites. Sailor Moon was my first manga ever....Thanks

By W. Limpornpugdee I am an 11-year old girl whose mom got this set! Their funny expressions and unique designs were awesome when I saw them and I appreciated the author's hard work! And I understand Tuxedo Mask was forced to find "The Legendary Silver Crystal". There's even Sailor Chibi Moon! I didn't even know she existed in the Sailor Moon series!

By neptune I only have a few volumes of the pocket book edition and for a while I had wanted to buy the whole series. Then I heard that Kodansha was translating the series so I decided to buy the box set. I like that each volume has a few color pages and it also came with stickers.
Pro A few color pages Bigger than the pocket book Cheaper than buying the volumes individual
Con It's harder to get the volumes out of the box and it's also harder to put them back in. Other than that, I really enjoy reading the first six volume.
