Paul Volberding, Warner Greene, Joep M. A. Lange MD, Joel E. Gallant MD MPH, Nelson Sewankambo : Sande's HIV/AIDS Medicine: Medical Management of AIDS 2013, 2e before purchasing it in order to gage whether or not it would be worth my time, and all praised Sande's HIV/AIDS Medicine: Medical Management of AIDS 2013, 2e:

1 of 1 people found the following review helpful. Great resource!By Brian K. GoodroadAn excellent and up-to-date resource. Very comprehensive for medical care aspects of HIV. I have been involved in HIV care for 26 years, and while we have good annual handbooks, we have been missing an annually updated, comprehensive text such as this! Thanks!0 of 0 people found the following review helpful. excellentBy mauroit excellent and updated, used mainly to write thesis.Comparison to different journals of HIV, it shows that this book has current information.This book meet

my expectation, it helps to structure some part of the thesis. Highly recommended! 1 of 1 people found the following review helpful. It is not the original one!! By GUILLERMO PORRAS It is not the original one. The original book is with very nice color diagrams and pictures. This is a black and white copy. I bought this thinking that will be the original.

Access the latest information available in the challenging area of HIV/AIDS management with Sande's HIV/AIDS Medicine, 2nd Edition. Authored by a veritable "whos who" of current global experts in the field, this medical reference book will provide you with all the practical, indispensable guidance you'll need to offer your patients the best possible care. Access reliable, up-to-the-minute guidance that addresses the realities of HIV/AIDS management in your geographical region, thanks to contributions from a global cast of renowned expert clinicians and researchers. Locate the clinically actionable information you need quickly with an organization that mirrors the current state of the AIDS epidemic and the different needs of Western vs. developing-world patients and clinicians. Diagnose AIDS manifestations confidently by comparing them to clinical images. Improve patient outcomes with the latest findings on the management of AIDS as a chronic illness. Efficiently review essential data through numerous at-a-glance tables. Get the most relevant information available on pediatric HIV and AIDS issues; anti-retroviral drugs, including integrase inhibitors; and the use of second- and third-line anti-retroviral drugs in resource-poor settings. Stay current on the latest actionable information, such as using antiretroviral therapy in patients with tuberculosis and drug-resistant tuberculosis; antiretroviral therapy; immune reconstitution inflammatory syndromes (IRIS); and implementation of the HPV vaccine. The very latest in HIV/AIDS management from global experts with a concise approach and a clinical/practical focus.

"In addition to the most important aspects of HIV infection, the book also covers global epidemiology, a real plus. Readers will be delighted with chapters on the biology of the virus, HIV prevention, antiretroviral therapy, and antiretroviral pharmacology. Much of the book is devoted to chapters on diseases associated with HIV infection. Special chapters detail management of mother-to-child transmission, adolescents, substance abuse, and travel medicine in the setting of HIV infection. This book is published in both print and electronic formats. The editors note that it is offered in a version for more resource-rich settings and in an overlapping but distinct version for "the resource-constrained 'South. There is no other book available that provides such an amount of detail in a compendium format. It is an excellent resource that will satisfy most readers." - Uriel Sandkovsky, MD, FACP (University of Nebraska Medical Center) Doody 4 stars "This is a comprehensive resource for infectious diseases physicians working in the developed and developing world. Its authored by a veritable 'whos who of global expertise' - the chapters stand out as they are written by real experts." - BMA Book Awards 2008 - Commended
