I missed a lot of the individual magazine when they came out back in the 80's so it's great to get a compilation of several issues in a single book. Love to have the complete run of these. 0 of 0 people found the following review helpful. Excellent Volume! By Eric Bravick One of my classic favorites. The stories of Conan have resonated with me for my entire life. This volume does not disappoint! It reprints many great Conan tails in an easy to

read format. Also great if you don't want to damage your originals while traveling (this is my travel compendium of Conan reprints...)0 of 0 people found the following review helpful. Great writing.By RobertReprints of the classics. Great writing.

Showcasing stories from Marvel's Savage Sword of Conan the Barbarian #121-#130, never before collected and out of print for over a quarter century!"I side with myself." The fierce reputation of the barbarian warrior Conan grows throughout the lands of Hyboria, with kings and conquerors alike willing to pay a fortune for the fearsome Cimmerian's broadsword. But when warring factions are both willing to secure Conan's services, they discover that they can buy a mercenary's blade but never his allegiance.
