It's not a surprise how it turns out, because no one doubted that, not even the confesser. But Mei is completely taken off-guard by it, because she had no idea. She doesn't know how to respond, either.And then they graduate. We knew it was coming at some point, and yet it still didn't seem like there was enough

warning and then it happened. It's a bittersweet moment, because they have to say goodbye to high school and their friends, but it's also good because they get to start something new. They get to become adults and start working for careers and college and whatnot. The button-taking thing was fun, too. I'm a big fan of this series, and I'm really interested to see where it goes next. I typically like when series expand beyond high school and into college, but I know a lot of series go downhill or lose popularity. It also can mean bad things for high school romances. I'm really excited to read the next one. [More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.] 1 of 1 people found the following review helpful. LOST AND FOUND It's the last winter vacation for Mei and her friends, and with their futures after high school settled, they now have time to relax. During winter break, Ren invited Mei out to play with his younger sister Hiro, but during a conversation between Mei and Ren, Hiro goes missing...again! A frantic search ensues and it all ends with an emotional outburst that may affect Mei and her relationships. How will Mei handle this unexpected turn of events, and will it bring her closer or drive her apart from the people she cares for?
