Onto the next chapters in their life By Elissa Most series stop after the characters finish high school, but I love that Say I Love You is still going. It is so interesting to see how each of these characters grow in their new environment and deal with being apart more than they have ever been. You really don't know if the relationships/friendships will last or what kind of hardships everyone will face - much like real life as we change and grow.. even if it sometimes means leaving people behind. 0 of 0 people found the following review helpful.

Four StarsBy Nichole BellowGreat story.0 of 0 people found the following review helpful. GoodBy Jude~3.5-4/5(Contains some spoilers.)Of course now that they're in college, Yamato has to meet some woman who immediately starts getting in the way. Of course.I really hate these kinds of stories. I really do.So. Yamato and Mei are doing different things, and while they're talking on the phone, they're not really seeing each other much. Mei is trying to branch out, while Yamato is meeting people and has made a new friend in this girl who is clearly interested. Then Asami and Takeshi start having problems, so this leads to even more worries.Near the end, it looks like Mei is going to speak with Asami about some things, and I hope that happens. She needs to be more open with her friends about these things.Then there's Megumi. She's doing better as a person, I guess, but she's also struggling as a model. I still want her to get closer to Kai, as well. I'm not really sure where her character is going from here, though.I love college stories, but I also hate all these relationships that end right after high school. Ugh. I hope the next one is better, and that Yamato and Mei actually get to talk. We'll see, though.[More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.]

**COLLEGE CONUNDRUM** After graduating high school, Mei and Yamato begin to venture towards their futures. For their careers, they have decided to go to different schools and come into new environments with new experiences and friends. But the excitement of college life also brings challenges into the relationships of Mei and her former schoolmates. And when a mutual friend strays from his high school love, the distance between Mei and Yamato starts to create uncertainty in their lives.

**About the Author**Kanae Hazuki has been drawing romance manga since 2004. Say I Love You, which Kodansha began serializing in 2008, is her breakout hit, and her first manga for teens to be published in English.
