Ivan Brunetti : Schizo #4 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Schizo #4:

by Ivan Brunetti In his acclaimed oversized color issue, Brunetti taps into his academic side with biographies of Piet Mondrian, Soren Kierkegaard, Erik Satie, James Thurber, Francoise Hardy, Louise Brooks, and J.K. Huysmans. And if that weren't enough, there are tributes to Charles Schulz and the Marx Brothers; a step-by-step guide on how to draw cartoons; and strips on misogyny, 9-11, suicidal ideation, and abortive crushes on waitresses!
