the unique ability to inject real personality and human foibles and idiosyncrasies into the super hero genre. This story, for me, kicked off the best era of Marvel, leading to Civil War I and Secret Invasion, Dark Reign.

When Nick Fury finds a disturbing connection between many of Marvel's deadliest villains, he puts together a ragtag team of the MU's most misunderstood heroes for a secret mission to do what the US government could never allow, eventually leading to a super-powered blowout between a who's who of NYC heroes and mutants.
