**Jonathan Hickman, Brian Michael Bendis : Secret Warriors: The Complete Collection Volume 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Secret Warriors: The Complete Collection Volume 1:

2 of 2 people found the following review helpful. Everything you've ever wanted to know about S.H.I.E.L.D. By Robert Moore Jonathan Hickman's two-volume SECRET WARRIORS is as close to the model for the TV series MARVEL'S AGENTS OF S.H.I.E.L.D. as exists. Well, perhaps along with certain elements from the Charles Soule

written INHUMAN comics in the Marvel Now! reboot of their titles. I won't go into what bit was taken from which - and even if one did, there are still other bits taken from other comics - but the central story arc concerning Daisy Johnson becoming Nick Fury's protege is in broad strokes the basis for the TV series, the major difference being that the TV series substitutes Agent Coulson's relationship with Skye for that of Fury and Daisy Johnson, though the source material has been made clearer in Season Three as Skye, after learning late in Season Two that her birth name was Daisy Johnson, has asked everyone to call her Daisy Johnson. This pair of books provided some of the major inspiration for the Marvel cinematic universe, since it explores in detail the notion that S.H.I.E.L.D. may have been under the control of Hydra (and similar organizations) for decades. I do want to stress that this is a Nick Fury series more than a Daisy Johnson one. Moreover, it is mainstream Nick Fury (i.e., he is a white guy - there is a great moment in SPIDER-MEN, where the Spider-Man from the Amazing Spider-Man, Peter Parker, travels to the Ultimate universe, where Spider-Man is the extremely young Miles Morales - for reasons I won't go into, Nick Fury is aware of the incursion by another Spider-Man, a Nick Fury who was drawn to look like Samuel L. Jackson several years before he was approached to play Fury in the movies; Miles asks Peter if there was a Nick Fury where he came from, and asks what he was like, to which Peter replies, "Uh, white", causing Fury to add, "Sorry to hear that." Stories are told and retold in the Marvel (and DC) Universe, so there will probably never be a final great Nick Fury or Howling Commandoes story, but if you wanted a candidate for such a story this might be it. Daisy Johnson might be on the cover of one of the volumes, but there is no doubt that it is primarily a story about Nick Fury and his Commandoes, and the generations that are supplanting them. 0 of 0 people found the following review helpful. What Agents of S.H.I.E.L.D. wishes it could be By Gentleman Lion Where to start! Upon hearing about a book about a bunch of covert ops teenagers with superpowers you may think this has a traditional superhero feel. You would be wrong. This is a truly wonderful and gripping spy drama with action scenes sprinkled in sparingly. The story is intense; this is not your granddad's comic series! The characters are well thought out and the ever-evolving chemistry between them at the level of engrossing that only Hickman could provide. If you are looking for an impossibly cool and serious espionage story, look no further!!! 0 of 0 people found the following review helpful. Hickman Kills It By Monstarz Inc. Another amazing story by Jonathan Hickman. Love how he writes Nick Fury, really captures what Fury is all about. A great cloak and dagger spy story, I highly recommend for any fan of Hickman

Nick Fury, former director of the now-defunct S.H.I.E.L.D., has gathered a special handpicked team. Young and untested, the Secret Warriors are the offspring of the most powerful forces on Earth...and with Fury's guidance, they might just have what it takes to save the world. But their mission is upended when Fury uncovers a bombshell Hydra conspiracy that reaches back for decades, to the very beginnings of S.H.I.E.L.D.! COLLECTING: Secret Warriors 1-16, Dark Reign: The List - Secret Warriors 1, material from Dark Reign: New Nation 1
