**Sina Grace : Self-Obsessed** before purchasing it in order to gage whether or not it would be worth my time, and all praised Self-Obsessed:

1 of 1 people found the following review helpful. Self-Obsessed lives up to and beyond its titleBy N. D. BrandtA soul-bearing look at life, Sina Grace walks us through his eclectic playground with a lot of character, not the least of which being his own. His wit is tempered only by his honesty. Fans of his work, or autobiographical work in general, will find this to be a worthwhile read.0 of 0 people found the following review helpful. Another winner by Sina Grace!By

KasseesI appreciate autobiographical comics and is no exception! It's an honest look into the author's journey towards following his heart, aka being a comic book author/artist of his own. Like peering into his old sketchbooks, we get to see Sina's art style grow and settle into what it becomes over the years. Sina's hard work and dedication to the craft truly pays off in this book. Highly recommend. 1 of 1 people found the following review helpful. Average Gay Men Will Enjoy ItBy MaxDefinitely not a book for everyone, but there were some lines that I really identified with. I would definitely recommend it to any average gay dude.

Cartoonist Sina Grace returns to his slice-of-life roots with the most personal and intimate work he's done since 2012's *Not My Bag*. Taking over a decade's worth of rarely-seen strips, essays, and new material, readers will get an uncompromising look at the journey Grace has taken to living his dream, loving himself, and trying to grow up. Introduction by Jeff Lemire! The book includes exclusive conversations with Ryan O'Connell and Colleen Green. Over 80 pages of new and never-before-released stories.
