David Walker : Shaft Volume 1: A Complicated Man before purchasing it in order to gage whether or not it would be worth my time, and all praised Shaft Volume 1: A Complicated Man:

0 of 0 people found the following review helpful. John Shaft is back! Awesome.By Marc E. DiPaoloI've taken a deep dive into the Blaxploitation film canon lately and this comic does justice to the Shaft movies and the whole genre. A perfect origin story for John Shaft with fantastic writing and art. I can't wait to read more Shaft comics!1 of 2 people found the following review helpful. Gives to the New, but Remembers of the OldBy Nate O.Very captivating and

draws your attention to this graphic novel. I have never read the original novels, but watched the 1st movie and this is great for both those new to the series and for the old it will nostalgic. I didn't expect to it to be planned so great, many questions and statements made that are philosophical and help you understand Shaft as he is really 'a complicated man' in both character development and plot, as well introducing other characters you will see in the cinema series. I recommend to this book to any one doesn't mind a little blood or some vulgar, but I think you can still ignore that if that steers you away as the theme of the book is implemented so well to this story. The art style and design is so appealing it hurt to pull away and not keep my eye on the drawings and colors until reaching the next caption. And theirs bounces art for those who couldn't get enough of it. The illustrators/artists of this novel hopefully collaborate with the writer/author so we get more books for this series. Best graphic novel I have read in a long time. 0 of 0 people found the following review helpful. Who's that hard-boiled detective? Shaft! By Spidey Forget everything you know about Shaft from the movies. This is the Shaft from the novels and yes, he is one bad Mofo. This is 70's gritty detective pulp at its best. You can tell Walker really cares about the character. This is by far the best work of his I've read. Bilquis Everly's art works very well to capture that grime of New York City in the 70's. John Shaft is recently home from Vietnam and trying to figure out what to do with his life. While working as a private eye, he meets someone special. The next thing you know, some bad dudes are breaking down the door and asking about a friend of his girlfriend's. Now he's got to figure our what's going on while trying to wiggle out of this situation alive.

Who's the black private dick that's a sex machine with all the chicks? Shaft! (You're damn right!) Created by author Ernest Tidyman and made famous in a series of novels and films, iconic hero Shaft makes his graphic novel debut in an all-new adventure. He's gone toe-to-toe with organized crime bosses, stood up to the cops, squared off against kidnapers, and foiled assassination attempts. But who was John Shaft before he became the hardboiled investigator with a reputation as big as New York City itself? Recently arriving home from his tour of duty in Vietnam, his first case tracking down a missing person for his girlfriend quickly turns into a matter of life and death, making him a target of gangsters and the police!
