Rich Tommaso : She Wolf Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised She Wolf Volume 1:

0 of 0 people found the following review helpful. Beautiful and IntriguingBy JKI loved this comic. The story is presented in a very fluid way, and I love the watercolor-ish art. A little creepy, a little mysterious - always intriguing.3 of 3 people found the following review helpful. Artsy, strange werewolf horror storyBy brutusmuktukThis is not at all what I expected when I picked up a comic called She Wolf. Then again, you never do know what lurks behind the

pages of such a comic. And what lurks within these pages is not wholly satisfying, though somewhat intriguing. The first thing that pops out is the odd artwork. Writer/artist Rich Tommaso doesn't aim at beauty or realism, but a cartoony, quirky surrealism. This is much more reminiscent of the sort of cartoons you might find late at night on Adult Swim. Tommaso makes extensive use of odd, dull colors, particularly to differentiate dialogue bubbles. Such a style is definitely going to be polarizing. The plot is unstable and confusing to say the least. All that we know is that Gabby, the main character, is attacked by a werewolf she knows as Brian. He scratches her, then next thing we know she is lying in bed, naked. She shares a room with another woman - her sister, probably, since she is a high school student. Which makes it strange, then, that we see her naked. The narrative jumps and skips through the story. There are moments where it is difficult if they are really happening or just happening in Gabby's mind, especially an odd Red Riding Hood moment with a twist on that fairy tale. Perhaps what makes this toughest for me to recommend is the amount of time you will spend with it. This is a very quick read, about 5 minutes, definitely less than 10, with sparse dialogue. This is all action, choppy action, and no character development. For those who love artsy, independent comics, this will be right up your ally. And I'm not saying it's bad. I was intrigued. Just not enough to want to continue reading it. The artsy horror story seems to be in fashion at the moment, though, with such movies as *It Follows* and *Under the Skin*. If you like those, you will like this. If not, stay away.

Werewolves and vampires - not much good in my opinion
By PaulAllard
A high school girl gets scratched by a werewolf and slowly becomes one. She is befriended by a vampire and they get up to all sorts. This is not particularly interesting stuff and the line drawing artwork does not appeal to me makes this a poor choice for me.

A surreal exploration in horror, *SHE WOLF* follows a teenage girl who believes she's been bitten by a savage werewolf. Soon after she begins to experience feverish nightmares that seamlessly bleed into her everyday reality. Friends and family help to unlock the keys to her strange transformations through their own personal experiences with lycanthropy and by use of witchcraft. Collects Issues #1-4
