You know the story, but it's interesting to see it in a different style. It's fun to read, even if you don't care much for comics 0 of 0 people found the following review helpful. Pretty

much...By Kindle CustomerJust like the first episode of the series, only in manga form. I like the artwork and feel the artist really captured the characters. I also like the ebook better because I can see it a lot clearer than a paperback form.0 of 0 people found the following review helpful. Good but shortBy MasterCardIm giving it 5 stars because of the art and the story. As for the length its just too short -45pg. I was expecting at least half of the 1st TV show episode in this manga... So i m not planing on buying the rest, even for the price of \$1
