It just kind of lacked the fun and steady beats as the previous arcs. I think the next arc will definitely be more of a ride and this does not deter me from continuing the series. Maybe I'll enjoy it better upon my first re-read.0 of 0 people found the following review helpful. For the cat aloneBy J. WoodI bought this mainly to find

out what was happening with the Alarm Cat (Cassius). Not much interest in the other characters. 0 of 0 people found the following review helpful. Five StarsBy N StaceyI love this comic! The art and writing are fantastic!

Kate Kristopher was a globally renowned explorer on an Earth far more fantastic than our own. Then she wasn't. In our third volume, Kate's memory has been wiped by the organization manipulating her entire life. Those she hold close all walk to their execution. All roads lead to Leonis. COLLECTS SHUTTER #13-17.
