Adventures with the Kristopher siblingsBy PaulAllardIt's a shame that I don't remember what happened in Volume 3

(read too much other stuff since). Katheryn has gathered the siblings together to decide how to deal with Prospero. There's a brief look into the past and plans for the future. A confrontation with Prospero completes the book with unexpected results and consequences which will no doubt appear in the next volume. Some of the work is drawn in the Belgian-school style of Tintin which makes a nice change but all the artwork is nicely-executed. The story is engaging and interesting and there's more to come. Hopefully I'll remember enough of the plot to appreciate it.

Kate knows everything! We don't! This story arc that sheds light on the past that Kate and company tried to leave behind. Clues from that past contains answers for where they go next. All roads converge. Not everyone survives the trip. Collects SHUTTER #18-22.
