Hill Heads know who they are. If you are a Hill Fan this is the book for you. If it's a gift for a silent hill fan then get it for them! Great investment and hours of enjoyment.UPDATE: This really is a collector grade book. The person I gave it to loves it and often reads and

re-reads. One of the better gifts I have bought for someone here on .10 of 16 people found the following review helpful. For true Silent Hill fansBy Stride KnightIf you just played the games because you thought they were creepy and kinda cool, then this probably isn't for you. If however, you like the universe of Silent Hill, the atmosphere, and the ongoing story, then definately check these out. If you enjoy graphic novels too, then these are fun. The story at first seems eratic, but the last section brings it all together and puts the story into place (like so often happens in silent hill). Overall definately worth reading.
